PROFESSIONAL SUMMARY

AI and Machine Learning undergraduate with strong foundations in Python, data analysis, and machine learning algorithms. Experienced in building predictive models and real-world user-centric solutions including AR navigation and assistive technologies. Seeking entry-level roles in ML, Data Analytics, or Software Development.

EDUCATION

B.Sc Artificial Intelligence & Machine Learning (2023 – Present) – University of Mysore

Higher Secondary Education (Bio-Maths) (2021 – 2023) – GHSS Villadom

PROJECTS

AR-Based Smart Campus Navigation System (Ongoing)

- Developing a mobile AR application using Unity and ARCore for real-time campus navigation.
- Implementing shortest path algorithms and AR directional overlays.
- Designing UI for searching campus locations.
- Using GPS and Firebase for tracking and data management.
- Adding voice guidance and basic indoor navigation.

WORKSHOPS & INDUSTRIAL TRAINING

5-Day Workshop on AI & Machine Learning – Inker Robotics, Thrissur

- Built real-world mini-projects using AI and Computer Vision.
- Hand Landmark Detection using OpenCV & MediaPipe.
- Air Canvas for touch-free drawing.
- Pose Detection & Alert System.
- Voice Assistant Chatbot.

TECHNICAL SKILLS

Languages: Python, Java, C++, SQL, HTML

Data Science: Pandas, NumPy, EDA, Statistics

Machine Learning: Regression, Classification, CNNs, Computer Vision

Technologies: Unity, ARCore, Firebase, OpenCV, MediaPipe

Tools: Git, GitHub, VS Code
